

Fahad Noor

BS Computer Science

Education

National University of Computer and Emerging Sciences (FAST-NU), Lahore

Bachelor's of Computer Science – 2023

CGPA : 2.56

Kips College, Lahore

F.Sc - Pre Engineering - 2019

Projects

Rolling Rentals

I developed Rolling Rentals, a car rental platform using Node.js, Express.js, and MongoDB. The platform enables customers to list their cars for rent online, browse and book available cars, and allows car owners to manage their listings and bookings through an admin portal.

Tech Tonic an E-commerce website

This was a web application project. I developed it using express framework and mongodb database. The project incorporated most of the functionalities of a fully functional e-commerce store such as cart, checkout, authentication, validation and payments.

Tic Tac Toe using MiniMax Algorithm

I designed and implemented a Tic Tac Toe game in C++ using the Minimax algorithm, a popular artificial intelligence technique for decision-making.

Sudoku Game

As part of semester project I developed a Sudoku game in C++ that allows users to play and solve Sudoku puzzles. The game includes various difficulty levels to cater to players of different skill levels and the login/signup functionality using file handling.

Professional Skills

Programming languages: C++, JavaScript, HTML, CSS

Web development frameworks: Node.js, Express.js

Database management systems: SQL, MongoDB

Version control systems: Git

Professional Courses

Udemy

The complete 2022 Web Development Bootcamp by Angela Yu

Udemy

NodeJS - The Complete Guide (MVC, REST APIs, GraphQL) by Maximilian Schwarz muller

Interests & Activities

Cricket, Tennis, Traveling, Web Development, Part Time Tutor on Preply.
